DIFFERENTIAL GEOMETRY: A First Course in Curves and Surfaces

Most students taking a course in linear algebra will have completed courses in differential and integral calculus, and maybe also multivariate calculus, and will typically be second-year students in university. This level of mathematical maturity is expected, however there is little or no requirement to know calculus itself to use this book successfully.

A FIRST COURSE IN DYNAMICS - bhasselb.pages.tufts.edu

The first course in analysis which follows elementary calculus is a critical one for students who are seriously interested in mathematics. Traditional advanced calculus was precisely what its name indicates—a course with topics in calculus emphasizing problem solving rather than theory.
