A habit (or wont) is a routine of behavior that is repeated regularly and tends to occur subconsciously.. The American Journal of Psychology (1903) defines a "habit, from the standpoint of psychology, [as] a more or less fixed way of thinking, willing, or feeling acquired through previous repetition of a mental experience." Habitual behavior often goes unnoticed in persons exhib

Research design can be thought of as the logic or master plan of a research that throws light on how the study is to be conducted. It shows how all of the major parts of the research study – the samples or groups, measures, treatments or programs, etc – work together in an attempt to address the research questions.
