In psychology and logic, rationalization or rationalisation (also known as making excuses) is a defense mechanism in which controversial behaviors or feelings are justified and explained in a seemingly rational or logical manner to avoid the true explanation, and are made consciously tolerableâ€™ or even admirable and superiorâ€™ by plausible means. It is also an informal fallacy of reasoning.

Kellye, I think it was a great idea to make a post about having an excuse of why it would be ok to reconnect with a client. The reason it was a good idea is because some public relations practitioners might think their former client would be annoyed and turned off if they tried to reconnect with them.
