6 The Experience of Imprisonment. This chapter summarizes what is known about the nature of prison life and its consequences for prisoners. The dramatic rise in incarceration rates in the United States beginning in the mid-1970s has meant that many more people have been sent to prison and, on average, have remained there for longer periods of time.

Human sexual activity, human sexual practice or human sexual behaviour is the manner in which humans experience and express their sexuality. People engage in a variety of sexual acts, ranging from activities done alone (e.g., masturbation) to acts with another person (e.g., sexual intercourse, non-penetrative sex, oral sex, etc.) in varying patterns of frequency, for a wide variety of reasons.

Voting behavior is a form of electoral behavior. Understanding voters' behavior can explain how and why decisions were made either by public decision-makers, which has been a central concern for political scientists, or by the electorate. To interpret voting behavior both political science and psychology expertise

were necessary and therefore the field of political psychology emerged.
