UC Food Safety - UC Food Safety Home. Research and Extension faculty at UC Davis, Drs. Erin DiCaprio, Linda Harris, and Trevor Suslow, welcome you to the University of California Food Safety website. Link to presentations, publications, and websites related to the production, harvest and processing of foods.

## **UC Food Safety Home - UC Food Safety**

Food safety is a scientific discipline describing handling, preparation, and storage of food in ways that prevent food-borne illness. The occurrence of two or more cases of a similar illness resulting from the ingestion of a common food is known as a food-borne disease outbreak. This includes a number of routines that should be followed to avoid potential health hazards.

Food quality is the quality characteristics of food that is acceptable to consumers. This includes external factors as appearance (size, shape, colour, gloss, and consistency), texture, and flavour; factors such as federal grade standards (e.g. of eggs) and internal (chemical, physical, microbial).. Food quality in the United States is enforced by the Food Safety Act 1990.

This paper is a review of optical methods for online nondestructive food quality monitoring. The key spectral areas are the visual and near-infrared wavelengths. We have collected the information of over 260 papers published mainly during the last 20 years. Many of them use an analysis method called chemometrics which is shortly described in the paper.
