Link to presentations, publications, and websites related to the production, harvest and processing of foods.

UC Food Safety Home - UC Food Safety

Food safety is a scientific discipline describing handling, preparation, and storage of food in ways that prevent food-borne illness. The occurrence of two or more cases of a similar illness resulting from the ingestion of a common food is known as a food-borne disease outbreak. This includes a number of routines that should be followed to avoid potential health hazards.

Food safety - Wikipedia

Embracing and applying a risk-based approach to food safety can be challenging, particularly when countries have limited resources and /or capacities.
