Grid - Wikipedia

GRID-Arendal is a Norwegian foundation working closely with the United Nations Environment. We are working on projects all around the world on biodiversity, environmental crime, climate change and Indigenous Peoples.

GRID-Arendal

A modular grid has consistent horizontal divisions from top to bottom in addition to vertical divisions from left to right. These modules govern the placement and cropping of pictures as well as text. In the 1950s and 1960s, Swiss graphic designers including Gerstner, Ruder, and Müller-Brockmann devised modular grid systems like the one shown here.

Grid – Thinking With Type

GRID-Arendal graphics are free for attributed use. Please link the source to our site, credit the author, year and GRID-Arendal. All graphics are also available ...

A fly system, or theatrical rigging system, is a system of rope lines, blocks (), counterweights and related devices within a theater that enables a stage crew to fly (hoist) quickly, quietly and safely components such as curtains, lights, scenery, stage effects and, sometimes, people. Systems are typically designed to fly components between clear view of the audience and out of view, into the ...
