

optical illusions and other pdf

An optical illusion (also called a visual illusion) is an illusion caused by the visual system and characterized by a visual percept that (loosely said) appears to differ from reality. Illusions come in a wide variety; their categorization is difficult because the underlying cause is often not clear but a classification proposed by Richard Gregory is useful as an orientation.

Optical illusion - Wikipedia

Name Example Notes Afterimage illusion : An afterimage or ghost image is an optical illusion that refers to an image continuing to appear in one's vision after the exposure to the original image has ceased.: Afterimage on empty shape (also known as color dove illusion) : This type of illusions is designed to exploit graphical similarities. Ambiguous image
