Philosophy of mind is a branch of philosophy that studies the ontology, nature, and relationship of the mind to the body. The mind-body problem is a paradigm issue in philosophy of mind, although other issues are addressed, such as the hard problem of consciousness, and the nature of particular mental states. Aspects of the mind that are studied include mental events, mental functions ...

Functionalism is a viewpoint of the theory of the mind, the latter not to be confused with Theory of Mind. It states that mental states (beliefs, desires, being in pain, etc.) are constituted solely by their functional role in, i.e. causal relations with, other mental states, sensory inputs and behavioral outputs. Functionalism developed largely as an alternative to the identity theory of mind ...
