

pulmonary rehabilitation guidelines to pdf

Pulmonary rehabilitation, also known as respiratory rehabilitation, is an important part of the management and health maintenance of people with chronic respiratory disease who remain symptomatic or continue to have decreased function despite standard medical treatment. It is a broad therapeutic concept. It is defined by the American Thoracic Society and the European Respiratory Society as an ...

Pulmonary rehabilitation - Wikipedia

What is pulmonary rehabilitation? Pulmonary rehabilitation, also known as pulmonary rehab or PR, is a program for people who have chronic (ongoing) breathing problems. It can help improve your ability to function and quality of life.

COPD | Chronic Obstructive Pulmonary Disease | MedlinePlus

Chronic obstructive pulmonary disease (COPD) is a type of obstructive lung disease characterized by long-term breathing problems and poor airflow. The main symptoms include shortness of breath and cough with sputum production. COPD is a progressive disease, meaning it typically worsens over time. Eventually everyday activities, such as walking or getting dressed, become difficult.

Healthy Hearts: Fayetteville, NC Cardiac Rehabilitation

INTRODUCTION Early identification and treatment of pulmonary hypertension (PH) is generally suggested because advanced disease may be less responsive to therapy [1]. Treatment begins with a baseline assessment of disease severity, followed by primary therapy. Primary therapy is directed at the underlying cause of the PH.
