Toxen, Real World Linux Security, 2nd Edition | Pearson

Berislav Kucan writes with the following review of Real World Linux Security, 2nd edition. If you've already had a break-in, or just want to avoid it in the future, this book has some tips for you. If you've already had a break-in, or just want to avoid it in the future, this book has some tips for you.

Real World Linux Security, 2nd Edition - Slashdot

How to Read Security Advisories Skim-read the mailing list. If it's software you omit, hit 'next'. If it's software you installed but weird configs only, hit 'next'. If it says 'could make the software crash/hang', hit 'next'. If it says 'potentially execute arbitrary code', it's usually a vague handwave and you needn't hurry.
